hi

I bought a smartphone Jiayu S3 Advance through the joint purchase of movilesdualsim organized by Cancerbero13 .The terminal behaves erratically Gps makes it absolutely unusable

GPS coverage suffers losses oscillatory manner, giving randomly changes position, causing a dangerous navigation. Therefore I wish I apply the warranty clause and send it to SAT Spain

Deputy screenshots made with second intervals and comparative video recording

IMEI my device 866383020142215

Track number RS238134016NL
